## **SB 3379 - HB 3523**

March 4, 2004

**SUMMARY OF BILL:** Allows local boards of education to determine the number of members on the textbook committees based on the relative size of the local school system.

Under current law, textbook committees shall be set up by subject matter fields and composed of three to five teachers, or supervisors and teachers, the number depending upon the relative size of the local school system.

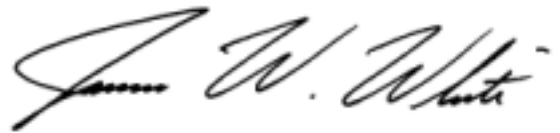

### **ESTIMATED FISCAL IMPACT:**

#### **MINIMAL**

Assumes no additional cost to the local boards of education textbook committees since the bill merely allows the board to change the number of teacher and supervisor members on the committees. The committee size would be determined by the relative size of the local school system but would not be limited to three to five members.
